

Gizmo Post-Implementation Student Survey

This spring your district was involved with piloting Gizmos in your classroom.

This survey asks you questions about your experience with using that tool. We would like to hear from you.

There are 12 questions and your responses will be anonymous (not be connected to your name) and confidential (we will not show your responses to your teachers or parents). If at any time you do not want to continue this survey, you may stop.

We want to hear from you, but if you decide not to complete the survey there will be no impact on your grades or your involvement in piloting the program at your school.

Thank you for letting us know about your experience!
